

PEULOT @ HOME – SUMMER 2020

**Category:** Omanut (Art), Social Distance Games, Sports

**Title:** Human Mario Kart

**Recommended Ages:**

All ages

**Materials:** Cardboard boxes, art and crafts materials, string, balloons

**Activity:** Distribute cardboard boxes and arts supplies to each chanich. Have them design it as a go-kart (it can be themed after mario players or anything they want). Once they finish creating the “go-kart”, take 2 and attach it to each side of the box so that they can wear it over their shoulders as straps. Then, blow up 3 balloons per kid and use string to tie it to the end of each chanich’s “go-kart”, so that it dangles behind them.

To start the actual game, the chanichim need to run around trying to stomp on each other’s balloons and popping everyone’s balloons. The last chanich to still have any unpopped balloons attached to their “go-kart” wins!

On a hot day, you can make the balloons water balloons to make it a little more refreshing!
